ABOUT ME

I am a Web developer. Also, I have prior knowledge of Java and did my programming in Java. I am a positive-minded person and passionate about technology. I'd love to learn new things and gain knowledge to enhance my skillset.

PROFESSIONAL EXPERIENCE

Assistant System Engineer

Tata Consultancy Services(TCS)

Aug 2021 – present | Chennai, India

Software Developer Intern

Albanero

Dec 2020 – Jun 2021

Worked with IAM(Identity Access Management)

- I used to build Webpages for albanero. I have also worked with the IAM team. I have created screens like login, register, forget password, profile, and organization screens and used to maintain the screens. I have also worked on the writing the script and testing the API.
- Also, I have learned **ReactJS** and **Redux** and used them to create web pages
- Also, Tested some of the API using Postman and learned about load balancing.

Intern

Edtyro Pvt Limited

Dec 2019 – Jan 2020

I have learned **Reactjs** under the supervision of Mr.Jevan Pant. Also, I have built the Chatty-application under his guidance

INTERESTS

Cloud

Data Science

Backend

EDUCATION

Guru Gobind Singh Indraprastha University

B.Tech (IT)

2017 – 2022 | Delhi, India

CGPA:- 8

Abhinav Public School

High School

2015 – 2017

Percentage:- 80%

PROJECTS

Result Evaluation and Report Generation

Mar 2021 – May 2021

- This project is basically to display the results to students and allow the teacher to add the result of the students to the application.
- Also, teachers can generate reports like (self-appraisal, Naac, etc.) from this project
- The technology which I have used in this project is for the Frontend(**Reactjs, MaterialUI, Redux**) and for the Backend(**NodeJs, ExpressJs**)

India Covid-19 Tracker

May 2020 – May 2020

- It tells us about the active, recovered, death case of covid-19 in India.
- The Technology used in this project is **ReactJs** and fetch the covid-19 data from the official API of Covid-19 India.
