- Information Technology

PERSONAL PROJECTS

Chatty-App (12/2019 - 01/2020)
- Build an Chat-Bot using Socket.io,React and Node (http://floating-depths-61749.herokuapp.com/)

Covid-19 Tracker (05/2020 - 05/2020)
- It tell us about the active ,recovered ,dealt case of covid-19 in india.(https://atom03.github.io/covid19-tracker/ (Here iis link of the app).)

Result Evaluation and Report Generation (03/2021 - Present)
- This Project is basically to display the results to the students and allow the teacher to add the result to the application. Also, teachers can generate report like (self-appraisal,Naac etc.)from this project

WORK EXPERIENCE

Software Developer Intern
Albanero

12/2020 - 05/2021

Worked with IAM(Identity Access Management)
- I used to build screens for albanero. I have also worked with the IAM team. I have created screens like login, register,forget-password, profile and organization screens and used to maintain the screens.I have also worked on the writing the script and testing the API.

Contact: A.K Rahul - rahul.kumar@albanero.io

Intern
Edtyro

12/2019 - 01/2020

Achievements/Tasks
- I have learned to react under the supervision of Mr.Jevan Pant. I have built the Chatty-application under his guidance.
